PROFESSIONAL SUMMARY

AI & Machine Learning undergraduate with hands-on experience in software engineering, AI applications, backend development, and full-stack web development. Experienced in building scalable REST APIs, AI-powered mobile applications, and cloud-based systems serving 1,000+ users. Skilled in Python, Java, JavaScript, React, Node.js, Flutter, and Machine Learning with a strong interest in distributed systems, cloud computing, and artificial intelligence.

EXPERIENCE

Software Developer Intern

02/2026 – 03/2026

Bluestock Fintech

- Developed scalable Node.js microservices improving transaction processing by 25%.
- Optimized MongoDB indexing reducing database response time by 30%.
- Designed secure REST APIs reducing backend latency by 150 ms.
- Improved system scalability and reliability.

Web Developer Intern

08/2025 – 09/2025

CodeAlpha

- Built scalable REST APIs supporting 500+ concurrent requests.
- Developed reusable React components improving frontend performance by 20%.
- Reduced application downtime by 15% through testing and debugging.

EDUCATION

Bachelor of Engineering – Computer Science & Engineering (AI & ML)

2028

Sona College of Technology, Salem

Salem

CGPA: 8.20/10

TECHNICAL SKILLS

Languages

Python, Java, JavaScript, TypeScript, C++, Kotlin, PHP, SQL

Frontend

React.js, Next.js, Flutter, HTML5, CSS3, Tailwind CSS

Backend

Node.js, Express.js, REST APIs, JWT, Microservices

AI/ML

TensorFlow, PyTorch, OpenCV, Scikit-learn, LangChain, Gemini API, OpenAI API

Databases

MongoDB, MySQL, PostgreSQL, Supabase, Firebase

Tools

Git, GitHub, Docker, AWS, Linux, CI/CD

CERTIFICATIONS

Artificial Intelligence & Machine Learning

IIT Patna

Machine Learning

Coursera

Python for Data Science

Coursera

AWS Cloud Practitioner

In Progress

LANGUAGES

- English, Hindi, Nepali, Bhojpuri, Bajjika

PROJECTS

AI ZAYA – AI Assistant

Flutter | Node.js | Gemini API | Supabase

- Developed an AI-powered assistant application available on Google Play.
- Integrated multiple AI models with secure authentication.
- Optimized API response time below 500 ms.

Smart School ERP

PHP | MySQL | JavaScript

- Developed a complete school management system supporting 1,000+ users.
- Implemented attendance, examinations, fees, library, and role-based access.
- Improved administrative efficiency by 50%.

Fatty Liver Disease Detection

Python | TensorFlow | OpenCV

- Built a CNN-based deep learning model achieving 94% accuracy.
- Developed an image preprocessing pipeline reducing ultrasound noise by 40%.

Fire Detection & Emergency Alert System

Python | OpenCV | Computer Vision

- Developed a real-time fire detection system with automated emergency alerts.
- Enabled location-based notifications within 3 seconds.

ACHIEVEMENTS

Achievements

- Published AI ZAYA on Google Play Store.
- Winner of 4+ national and college-level hackathons.
- Built applications serving 1,000+ active users.
- Founder & Team Lead of Zaya Code Hub.
- Developed AI-powered and full-stack software solutions.
